A: Download : Adobe Animate CC 2015.1 Setup from the official link below ATP-induced homo-oligomerization of the luminal and cytoplasmic domains of the intestinal Na(+)-glucose cotransporter. The villin headpiece domain containing actin-binding protein (VH-ABP) is an important signaling component for the regulation of membrane trafficking and/or biogenesis. In cells of the intestine, the VH-ABP interacts with the intestinal Na(+)-glucose cotransporter (SGLT-1) and regulates its targeting from the Golgi apparatus to the apical
